

Dear Colleagues,

we are proud to announce that our

***2nd International Summer School  
on  
Exact and Numerical Models of Low Dimensional Quantum Structures***

which will take place at the Izmir Institute of Technology, Izmir, Turkey  
from August 23 to August 31, 2014

is now an event of the

***International Centre for Theoretical Physics -  
Eurasian Centre for Advanced Research***

***<http://ictp-ecar.org/>***

a new regional centre of the

Abdus Salam International Centre for Theoretical Physics (ICTP).

May we therefore again ask you to help us disseminate the information about the school to colleagues and especially those potentially interested in attending (students, postdocs, and researchers who want to learn about the subjects of the school) by drawing their attention to the school's web site at **<http://ldqs.iyte.edu.tr>**

Please do let us know if you know of any further means (e.g. mailing lists or servers) of which we should make use. Thank you very much, in advance, for helping us advertising the school.

All best wishes,

*the Organizing Committee*

Özgür Çakır (IZTECH, Izmir, Turkey)

Hans-Peter Eckle (University of Ulm, Germany)

Devrim Güçlü (IZTECH, Izmir, Turkey)

Balázs Hetényi (Bilkent University, Ankara, Turkey)

Hâldun Sevinçli (IZTECH, Izmir, Turkey)
