MISSION

Kudowa Summer School is a biennial event which mission is to provide high quality scientific lectures to students willing to start their careers in fusion and plasma physics research. It is traditionally organized by the Institute of Plasma Physics and Laser Microfusion (IPPLM, Poland) and attracts participants from many countries.

In 2024, the School will be held in Kudowa-Zdrój, Poland, from 3rd to 7th June and will cover a variety of topics interesting for all students involved in plasma physics research.

STUDENTS' SESSIONS

The plenary lectures given by well-known plasma physics scientists will be complemented with students' sessions.

Students who are interested in giving a 15-minute talk are kindly requested to send a 1 page abstract on their research before 23rd February, 2024. If the number of contributions exceeds the limit of available time-slots for the talks, a poster session will be arranged.

A special prize is foreseen for the most remarkable contributor.
